

is a folksy pop rock musical that follows Petoskey Vandam and Lulu Abughosh, a grieving Yooper boy and Dearborn girl, fight a data center to save their grandparents' historic lake house.

WHY MI? WHY ME?

Where David was Born. Family is Here.

His whole personality is using his hand to point at his favorite places on the Mitten.

The Inspiration? Grief and Hope at Home.

In 2026, after a series of suicides of his theatre hometown and college friends off the Mackinac Bridge and his own hospitalization, he returned home to camp at the MacGregor family reunion (third time). The great-grandparents' Elk Rapids lake house won't be around for long. With that in mind and David putting Michigan references in all his musicals, he may as well tell the stories of his lively family and late friends for stage and the world.

No Data Centers Near Our Drinking Water!

Its constructions are burdening the Great Lakes region. It is our duty to educate the public of its negative effects on our health and environment.

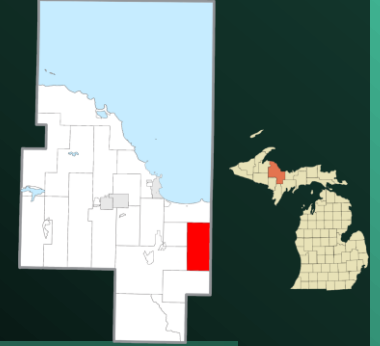

MEET LULU AND PETOSKEY

The folksy musical dramedy is set during a family reunion where two rival cousins must save their grandparents' historic lake house (and the whole town of Elk Rapids) from a data center.

It explores silent grief, hands-on creativity in the modern world, the working class, immigrant experience, nature, cultural disconnection of the peninsulas, and what it means to be a Michigander. 🖐️

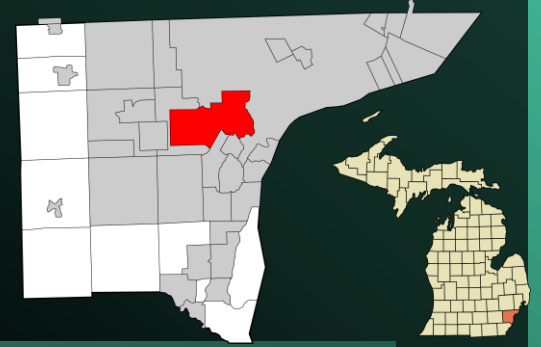

PETOSKEY VANDAM

Petoskey a 13-year-old farm boy from Skandia and the goofiest of Willy and Milly's grandchildren. Besides his mom Liz, the only connection to his extended family happens on Harbor Days in Elk Rapids. He never met his deceased dad. To honor Petey, his son wears his heart-shaped Petoskey necklace with an elk symbol and awakens folks with his Mitten Song.

LULU ABUGHOSH

Lulu is a 13-year-old city girl from Dearborn and the brightest of Willy and Milly's grandkids. Despite going above and beyond, she and her mom Shelby feel out of place. She tries to outshine her cousin Petoskey by finding rarer stones on their swims. She is Iggy Pop's biggest fan, and her favorite musical is *Dear Evan Hansen*. In Arabic, her name means "pearl."

THE VANDAMS FAMILY

GRAMMY MILLY & GRAMPY WILLY VANDAM

4th wall-breaking parents of Cherry, Perry, Petey, Shelby, who own the Elk Lake house in Elk Rapids. As automotive workers, their prized possession is a Ford Model T.

LIZZIE & PETEY VANDAM

AMANDA WAYLAND

The CEO of Turkey Ventures who created afterlife.ai whose goal is to turn the Elk Lake neighborhood into a data center. At Hope College, she was an art school rival of Cherry, before getting expelled for using Photoshop. So, she sees the Vandam family's hands-on creativity as inferior to the efficiency of AI. The Vandams describe her as a turkey vulture. But like most of the world, there is one thing she likes more than data and that is a cool rock, which Petoskey holds.

MUSIC OF MICHIGAN

FOLK

Banjo, lots of banjo. David writes in this genre a ton. He finds inspiration in The Milk Carton Kids.

HIP HOP

Much of this is in Lulu's character.

JAZZ

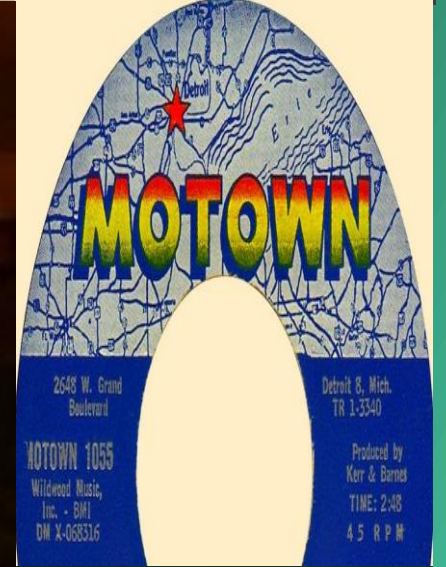

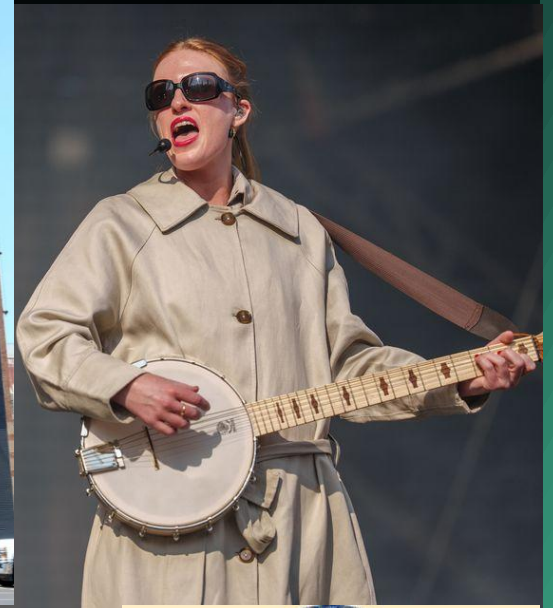

David is finding inspiration in his favorite jazz composer, Tommy Flanagan of Detroit.

POP

This is David's preferred genre. He was raised on Madonna (from Saginaw). He will bring even more Motown into this.

ROCK

This is Michigan after all!

DAVID AND THE MACGREGORS ON HARBOR DAYS

HARBOR DAYS

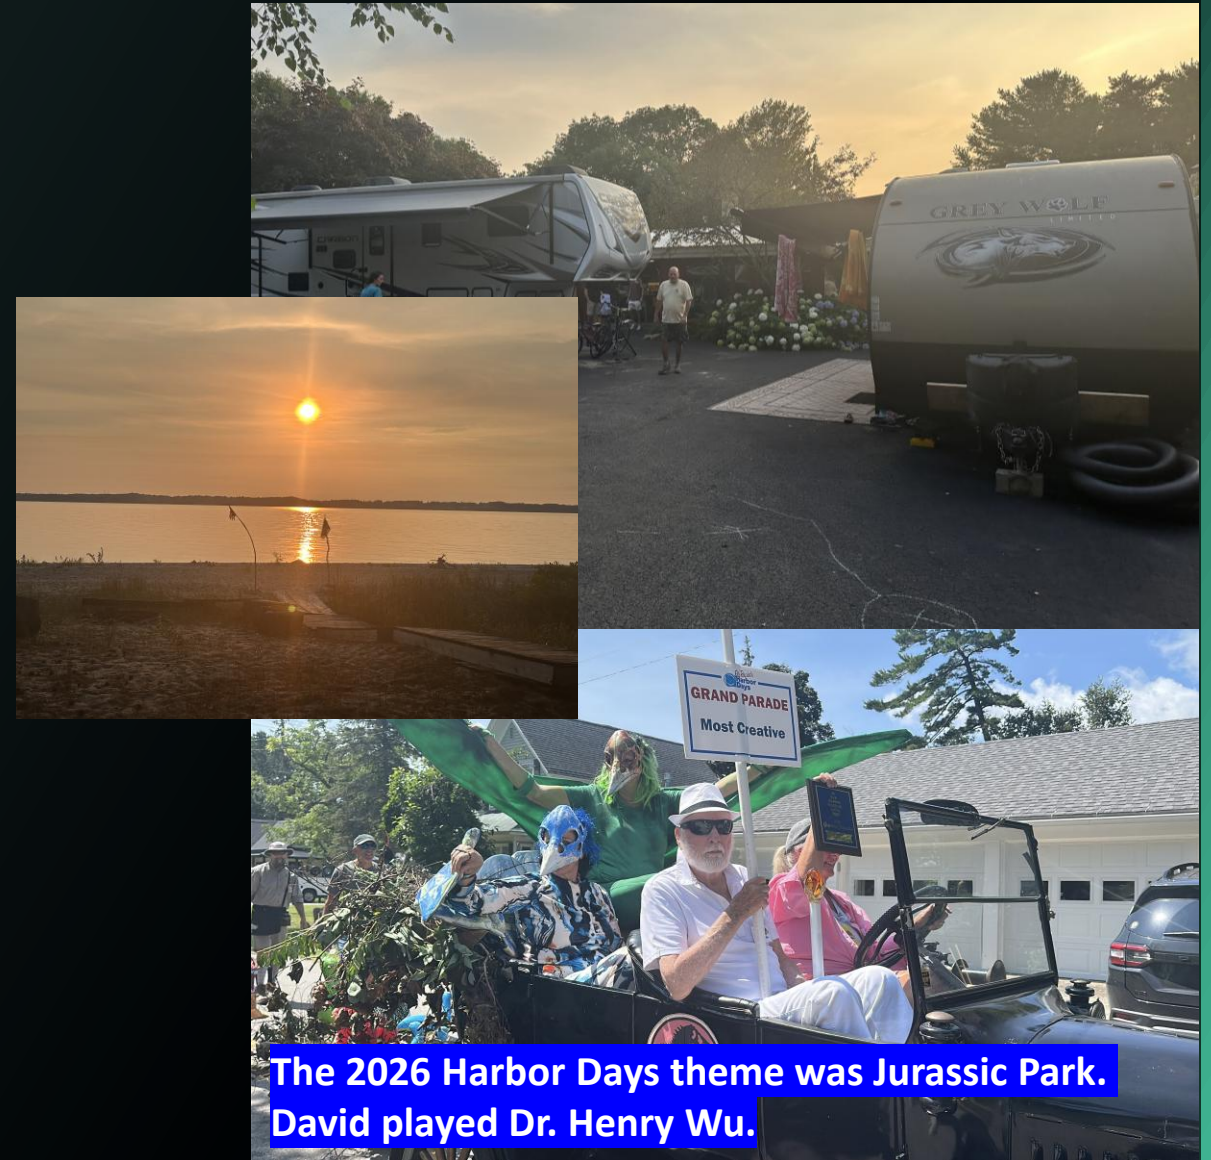

A four-day community festival held annually in August in downtown Elk Rapids, Michigan. Voted a favorite northern Michigan tradition, it celebrates community spirit with events like the Grande Parade, fireworks, and a carnival.

GRANDE PARADE

A half-mile parade with a lineup of custom floats, marching bands, nonprofits, and the award-winning MacGregor family who dress up in themes each year!

ELK LAKE HOUSE

The real-life MacGregor lake house has a multi-acre house and many acres of backyard space that meets the Traverse bay lakefront. They are the proud owners of a century-old Ford Model T.

The 2026 Harbor Days theme was Jurassic Park.
David played Dr. Henry Wu.

DATA CENTERS HURT MICHIGAN AND THE EARTH

NOISY BUILDINGS HURT WILDLIFE

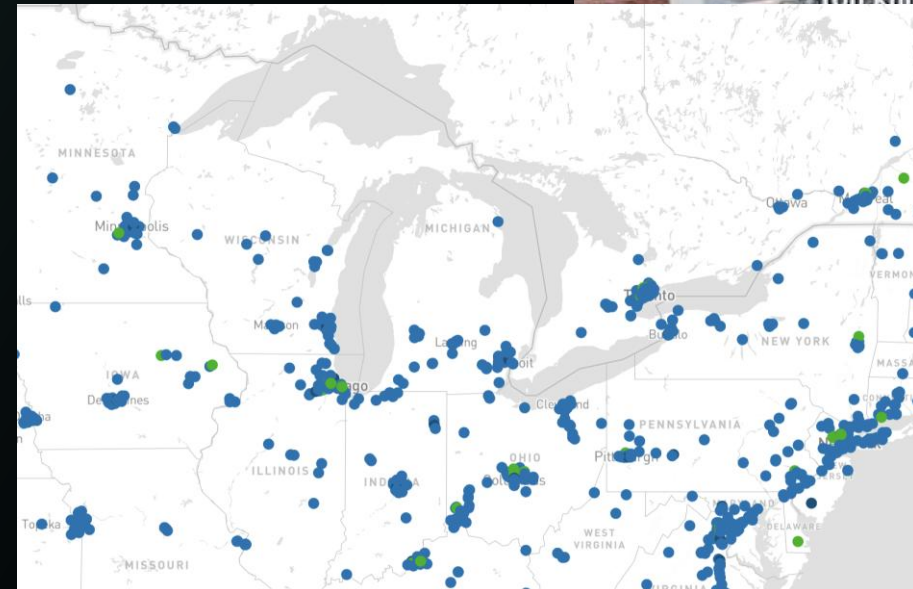

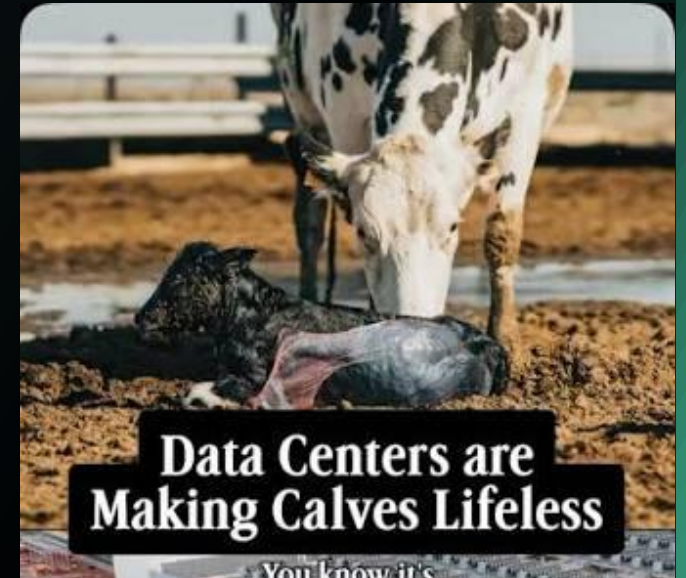

Ranchers in Texas report that low-frequency hums and vibrations from nearby data and energy centers cause severe stress in livestock, leading to claims of weight loss, breeding disruption, and stillborn calves.

EXPANSION IN THE GREAT LAKES REGION

Tech companies committed billions of dollars, such as Microsoft's \$20 billion campus in Mount Pleasant, Wisconsin, and others in northern Indiana, due to abundant water. This racks up the local electric bills.

DATA CENTERS FORCE OUT HOMEOWNERS

Homeowners in regions like Georgia are facing pressure to sell their properties as utility companies use eminent domain to build massive new power lines for data centers.
